Ringling date:	31 October 2004
Place:	Cross Lane Head, Bridgnorth, Shropshire
Coordinates:	52°33'N, 2°26'W
Grid Reference:	SO7095

FINDING DETAILS

This bird was caught at the same location on
27 January 2007

It was caught again, at the same location, later the
same year on 22 December

The last time it was caught was nearly 5 years later on
5 November 2012, again at Cross Lane Head, Bridgnorth, **8 years and
5 days since it was first ringed**. That's about 6 years longer than the
typical lifespan for a Goldfinch!
